

Function Point WORKBENCH™ - Publisher

Personalise, Customise, Standardise

CHARISMATEK Software Metrics
www.charismatek.com

Use CHARISMATEK's new **Function Point WORKBENCH™ - Publisher** for **distributed web publishing** of count reports.

In the **Function Point WORKBENCH™**, generate the count as an fsmML (XML) document.

```
<FunctionPointCounts xmlns="http://www.charismatek.com/fsmML/1.0" FSM="IFPUG 4.1"
Version="1.0" Level="3">
  <EnhancementProjectCount>
  <ProjectIdentification>
  <SoftwareProject>
    <Application ID="RRS" Name="Requisition Rejection System" />
    <Project ID="PROJ9302" Name="Enhanced Reporting Oct 2000" />
    <Phase ID="1" Name="2. Functional Requirements" />
    <Scenario Name="Phase II Rpts" AsAtDate="2000-10-25" />
  </SoftwareProject>
  <CountSchedule StartDate="2001-7-2" />
  <CountSupplier>
    <Analyst Name="Tessa Cleary-Moore" Role="Function Point Analyst" Experience="High" />
  </CountSupplier>
  <InformationSource>
    <Document ID="1" Name="Requisitions Rejection - Requirements Specification, Vers 1.8" />
  </InformationSource>
  </ProjectIdentification>
  <EnhancementProjectSize ADD="12" CHG="62" DEL="0" CFP="0" VAF="0.90" />
</FunctionPointCounts>
```

CHARISMATEK can customise report templates for you, or you can build your own!

Using **Publisher**, apply pre-defined or your own:

- report templates (XSLT)
- style sheets (CSS) and
- local language to customise standard WORKBENCH reports

Define your own report templates and style sheets to develop your own reports based upon the fsmML (XML) data.

Count Description			측정 설명				
Requisition Rejection System	Enhanced Reporting Oct 2003	2. Func	Requisition Rejection System	Enhanced Reporting Oct 2003	2. Functional Requirements		
Phase II Rpts	Enhancement Project		Phase II Rpts	개선 프로젝트
